

Technical Data Sheet

Q 40-610 Zinc Spray

Characteristics:

The rich primer is a highly effective, metallic rust protection primer on zinc basis. The high zinc content seals long-term and guarantees a high corrosion protection, even for temperatures above 400°C. The product is especially suitable for all car parts that must not be painted, e.g. exhaust systems, welding seams, galvanised parts and the inner side of the car body.

Application:

No pre-treatment with primers and no follow-up treatment with other top coats or clear lacquers necessary. Shake can for 2 minutes thoroughly.

Spray distance: 10 - 15 cm

Coats: 2 spray coats (= 40 -50 µm).

After completing the painting process turn the can over and spray valve empty.

Technical data:

Base: Special binding agent combinations

Color: grey
